

Wetlands and Watersheds BINGO

10 Different BINGO Cards

These cards are a fun way for your students to review words related to wetlands, watersheds, and ecosystems. Give them the definition and they have to find the matching vocabulary word on their card.

Watersheds and Wetlands Bingo

| | | |
|--|---|--|
| <p>Divide A land ridge that separates two watersheds</p> | <p>Watershed The land area that supplies water to a river system</p> | <p>Salinity A measurement of the amount of salt in the water</p> |
| <p>Permeable A characteristic of a material that allows water to easily pass through them</p> | <p>Groundwater Water that fills the cracks in underground soil and rock layers</p> | <p>Desalination The process of removing salt from water to get fresh water</p> |
| <p>Estuary An area where salt water mixes with fresh water</p> | <p>Conservation The process of using a resource wisely so it will not be used up</p> | <p>Erosion The process where water, ice, wind, or gravity move pieces of rock or soil</p> |
| <p>Turbidity A measurement of how clear the water is</p> | <p>Water Quality A measurement of the purity of water</p> | <p>pH Scale measures how acidic or alkaline a liquid is</p> |
| <p>Aquifer An underground layer of rock or soil that holds water</p> | <p>Reservoir A natural or manmade lake that stores water for human use</p> | <p>Irrigation The process of supplying water to areas of land so crops can be grown</p> |
| <p>Tributary A small stream or river that flows into a larger stream</p> | <p>Biotic Factors All the living parts of an ecosystem like plants and animals</p> | <p>Abiotic Factors All the non-living parts of an ecosystem like sunlight, rain, and soil</p> |

Watersheds and Wetlands Bingo

| | | |
|--|--|---|
| <p>Impermeable A characteristic of a material that does not allow water to easily pass through them</p> | <p>Eutrophication The process where nutrients in a lake build up over time, causing an increase in algae growth</p> | <p>Photosynthesis The process of plants using water, sunlight, and carbon dioxide to make food</p> |
| <p>Wetland An area of land that stays wet for all or most of the year</p> | <p>Transpiration The process by which plants release water vapor through their leaves</p> | <p>Ecosystem A community of living and non-living things that work together</p> |
| <p>Habitat A place that is home to plants and animals</p> | | |
